

Contents

1	Mathematical Logic: Mathematics of Logic or Logic of Mathematics	1
	Zvonimir Šikić	
2	The McCulloch–Pitts Paper from the Perspective of Mathematical Logic	7
	Tin Perkov	
3	From the Linguistic Turn to the Cognitive Turn and Back Again	13
	Marina Novina	
4	Why Not Fuzzy Logic?	29
	Ivan Restović	
5	Meaning as Use: From Wittgenstein to Google’s Word2vec	41
	Ines Skelac and Andrej Jandrić	
6	Rudolf Carnap—The Grandfather of Artificial Neural Networks: The Influence of Carnap’s Philosophy on Walter Pitts	55
	Marko Kardum	
7	A Lost Croatian Cybernetic Machine Translation Program	67
	Sandro Skansi, Leo Mršić and Ines Skelac	
8	The Architectures of Geoffrey Hinton	79
	Ivana Stanko	
9	Machine Learning and the Philosophical Problems of Induction	93
	Davor Lauc	

10	The Artificial Intelligence Singularity: What It Is and What It Is Not	107
	Borna Jalšenjak	
11	AI-Completeness: Using Deep Learning to Eliminate the Human Factor	117
	Kristina Šekrst	
12	Transhumanism and Artificial Intelligence: Philosophical Aspects	131
	Ivana Greguric Knežević	
	Index	139
