

Table of Contents

1.	General Introduction.....	1
1.1	The relationship between teachers' beliefs and their practices ...	2
1.2	Measuring teachers' beliefs and some problems in the measurements	2
1.3	Methodological arguments of the approach offered to solve problems in measuring beliefs	5
1.4	The theoretical framework and the structure of the TBTP	7
1.4.1	The theoretical framework of the TBTP	7
1.4.2	The structure of the TBTP	8
1.5	Studies conducted for constructing and validating the TBTP.....	10
1.5.1	The first preliminary study	10
1.5.2	The second preliminary study.....	11
1.5.3	The first validation study	11
1.5.4	The second validation study	11
1.5.5	The third validation study	11
2.	The First Article [The different mathematics performances in PISA 2012 and a curricula comparison: ...]	15
2.1	Introduction and background.....	16
2.1.1	The comparison of performances from Indonesia and Singapore in international comparison studies	18
2.1.2	Overview of Secondary Education System and the Curricula....	20
2.2	Theories of the interpretation of problem solving	22
2.3	Research questions	24
2.4	Method.....	24
2.5	Results	28
2.5.1	The comparison of mathematics contents.....	28
2.5.2	The comparison of the examination of the role of problem solving	31
2.6	Discussions and concluding remarks.....	33
2.7	Limitations and further studies	35
	References.....	36
3.	The Second Article [Teachers' beliefs and how they correlate with teachers' practices of problem solving]	39
3.1	Introduction	40

3.2	Theoretical background: Beliefs	40
3.3	Method.....	41
3.4	Results	42
3.4.1	Teacher A	42
3.4.2	Teacher B	43
3.4.3	Teacher C	45
3.5	Discussion	46
3.6	Concluding remarks.....	47
	References	48
4.	The Third Article [Measuring teachers' beliefs: A comparison of three different approaches]	49
4.1	Introduction	50
4.2	Theoretical background	52
4.2.1	Beliefs about the nature of mathematics and beliefs about teaching and learning of mathematics and problem solving	52
4.2.2	Problems in measuring beliefs: the weaknesses of Likert scale items	53
4.3	Method.....	55
4.3.1	Participants	55
4.3.2	Data collection and analysis	55
4.4	Results	60
4.4.1	Andre's interview along with an observation	60
4.4.2	Candra's interview along with an observation.....	62
4.4.3	The correspondences between the surveys and interviews	64
4.5	Discussion	67
4.6	Conclusion and limitations	69
	References	70
	Appendix.....	72
5.	The Fourth Article [Investigating the influence of the social contexts focusing on students' abilities ...]	75
5.1	Introduction	76
5.2	Theoretical framework	78
5.2.1	Beliefs about the nature of mathematics.....	78
5.2.2	The concepts of the relationship between beliefs	79
5.2.3	Students' abilities as a social context at school	80
5.3.4	Methodological arguments and structures of the newly developed instrument.....	81
5.3	Method.....	83
5.3.1	Research questions	83
5.3.2	Participants	84

5.3.3	Data collection and analysis	84
5.4	Results	87
5.4.1	Survey: Teachers' responses to the TBTP questionnaire.....	87
5.4.2	Interviews and videotaped lessons: Fitria	89
5.4.3	Interviews and videotaped lessons: Doni.....	91
5.5	Discussion	93
5.6	Conclusion and limitations	95
	References.....	96
	Appendix.....	99
6.	The Fifth Article [Offering an approach to measure beliefs quantitatively: ...].....	101
6.1	Introduction	102
6.2	The theoretical framework for constructing the TBTP	104
6.2.1	Beliefs of the nature of mathematics	104
6.2.2	The relationship between beliefs about mathematics and beliefs about teaching and learning of mathematics	105
6.2.3	The relationship between beliefs about mathematics and beliefs about teaching and learning of problem solving	106
6.2.4	Challenges in measuring beliefs quantitatively: The influence of students' abilities.....	107
6.3	The study	108
6.3.1	Research questions	108
6.3.2	Instrument: The TBTP	109
6.3.3	Data Analysis.....	111
6.3.4	Participants	112
6.4	Results	113
6.4.1	Teachers' beliefs about teaching and learning.....	114
6.4.2	Students' abilities on the relationship between beliefs	117
6.4.3	The interplay of students' abilities, teachers' backgrounds and teachers' beliefs	118
6.5	Discussion and Conclusion.....	118
6.5.1	Limitations.....	121
	References.....	122
	Appendix.....	126
7.	The Sixth Article [Capturing how students' abilities and teaching experiences ...]	127
7.1	Introduction	128
7.2	Theoretical framework	129
7.2.1	Beliefs about mathematics and about mathematics teaching and learning	129

7.2.2	The effect of students' abilities on teachers' beliefs and practices	130
7.2.3	Experiences in teaching mathematics	130
7.2.4	Problems in measuring beliefs for a large sample of teachers	131
7.3	Method.....	132
7.3.1	Participants	132
7.3.2	Data collection and analysis	132
7.4	Results and discussion	134
7.4.1	Teachers' responses to the TBTP	134
7.4.2	A further investigation.....	136
7.5	Conclusion, limitations and a further study	139
	References.....	139
	Appendix.....	142
8.	General Discussion.....	143
8.1	Discussion	143
8.2	Limitations and outlook	149
	References.....	151
	Appendix: The TBTP Questionnaire.....	155
