

**Part 1 The Characteristics & Objectives of the Disciplines – The Fundament ..... 19**  
Dance Medicine & Dance Science ..... 20  
Demands of Dance Medicine ..... 23  
To Which Dance Styles Can Dance Medicine Be Applied? ..... 28  
Which Level of Expertise (Amateur or Professional) does Dance Medicine Target? ..... 29  
Dance Pedagogy, Dance Education & Dance Training ..... 33  
Through the Eyes of Dance Medicine: Recognizing Dancers’ Individuality ..... 37  
Shared Objectives: An Overview on the Power of Dance ..... 40

**Part 2 Performance Enhancement & Injury Prevention – The Background..... 47**  
The Risks & Causes of Injuries ..... 48  
Acute & Chronic Injuries: Mechanisms, Risk Factors, Causes..... 50  
Dealing with Acute Injuries & Accidents: First Aid ..... 53  
Dealing with Overuse & Recurrent Injuries: Preventive Dance Medicine..... 56  
Overtraining & Injuries: Excessively Training While Increasingly Underperforming..... 57  
Dealing with Individuality & Responsibility: Effects On Teachers/Trainers & Dancers ..... 59  
Age, Specialization & Skills ..... 61  
Balancing Aspects of Dance Training: Fitness, Biomechanical Aspects & Diversity ..... 62  
Shoes, Clothing, Jewelry & Hairstyle ..... 63  
Costumes, Light & Scenery ..... 66  
Work Environment: On Stage & Backstage ..... 67  
Floors & Surface Quality ..... 68  
Injuries & Dance Style Specifics ..... 72  
Classical Ballet ..... 76  
Modern Dance..... 78  
Contemporary Dance ..... 80  
Jazz Dance, Broadway, Revue & Musical ..... 81  
Irish Dance..... 83  
Folk & Character Dance ..... 86  
Flamenco ..... 87  
Tap Dance..... 88  
Dancesport & Ballroom..... 89  
Urban Styles: Hip Hop, Breakdance & Co..... 90  
...And What About the Teachers, Trainers & Choreographers? ..... 94  
Children & Adolescents In Dance: Benefits & Risks..... 96  
Benefiting From Child Dance Classes For Life ..... 96  
Injuries in Children and Adolescents: Amateur & Vocational Training..... 98  
Early Specialization: The Wrong Idea About How to Become A Professional ..... 104  
The Silent Danger of Repetitive Micro-Traumata for Growing Structures..... 105  
A Child Dancer Is Not An Adult Dancer: Growth & Transition Phases ..... 107  
Dance Medicine in Pediatric Amateur and Professional Training ..... 109  
Transition Phases in Dance: Times of Chance or Vulnerability?..... 110  
Transition I: From Child Dance Class to Vocational or Recreational Education ..... 111  
Transition II: From Vocational to Professional Environment ..... 113  
Transition III: From Professional Life to Retirement or 2<sup>nd</sup> Career..... 114  
Transition IV: From Vacation to Season/Schoolyear & Within the Season/Schoolyear..... 116  
Transition V: Transition-Training From Rehabilitation Back to Performing ..... 117

Part 3 Performance Enhancement & Injury Prevention – The Implementation.....121

Primary & Secondary Injury Prevention: A Look at Investing Resources..... 122

Childhood & Adolescence: Growing up in Dance ..... 124

Laying the Groundwork: Vocational & Recreational Aspects..... 124

Phases of Adolescent Development: An Overview ..... 126

Puberty as a Special Challenge ..... 128

Balancing Needs, Demands, Performance Enhancement & Injury Prevention..... 131

Aspects Of Gender Differences & Growth..... 132

Water Balances, Schedules, Communication & Further Aspects Vital in Growth..... 136

...And What About the Teachers, Trainers & Choreographers? ..... 138

Nutrition as Vital Aspect of Injury Prevention ..... 139

Female Athletic Triad: Bone Health & Energy Availability in Female Dance ..... 141

Male Athletic Triad: Bone Health & Energy Availability in Male Dance ..... 147

Vitamin D and Health in Male & Female Dancers ..... 147

Education, Eating Habits & Disorders..... 149

Smoking: Education & Prevention of Stress Factors..... 151

Conclusion: Why “The Symbiosis of the Future” Became the Title .....155

Part 4 Getting Started: How to Find & Use Science – The Inspiration Part I.....159

The Search for Scholarly Literature: How to Get Started ..... 160

How to Create Your Very Own Research Collection..... 161

Types & Goals of Scholarly Literature ..... 162

How to Read & Use Scholarly Literature..... 164

Scientific Language: Excerpting & Extracting Vital Information ..... 165

Part 5 Bibliography & Recommended Reading – The Inspiration Part II.....169

Index.....183
