

# Contents

<b>1</b>	<b>Probabilistic uncertainty and sensitivity analysis.....</b>	<b>1</b>
<b>2</b>	<b>Input Uncertainties .....</b>	<b>3</b>
2.1	Distribution.....	4
2.1.1	Parametric Distribution.....	7
2.1.2	Nonparametric Distribution .....	30
2.2	Dependency .....	36
2.2.1	Population-related correlation .....	38
2.2.2	Sample-related correlation .....	44
2.2.3	Full Dependence.....	46
2.2.4	Conditional Distribution .....	48
2.2.5	Function of Parameters.....	48
2.2.6	Inequality .....	49
2.3	Proportions .....	51
<b>3</b>	<b>Sample Generation .....</b>	<b>53</b>
3.1	Pseudorandom number generators .....	53
3.2	Simple Random Sampling (SRS).....	55
3.2.1	SRS with consideration of population-related correlations .....	55
3.2.2	SRS with consideration of sample-related correlations .....	58
3.3	Latin Hypercube Sampling (LHS).....	60
3.3.1	LHS with consideration of population-related correlations.....	60
3.3.2	LHS with consideration of sample-related correlations.....	61
3.4	Sample generation with consideration of complete dependencies .....	62
3.5	Sample generation with consideration of conditional distributions.....	62
3.6	Sample generation with consideration of functional relationships.....	63
3.7	Sample generation with consideration of inequalities .....	63
3.8	Computer code runs .....	63

<b>4</b>	<b>Uncertainty Analysis .....</b>	<b>65</b>
4.1	Basic statistics .....	67
4.2	Tolerance limits .....	69
4.2.1	Wilks non-parametrical tolerance limits.....	69
4.2.2	Tolerance limits in case of a Normal or Lognormal distribution .....	75
4.2.3	Bootstrapped tolerance limits.....	76
4.3	Interval limits from Chebychev and Chebychev-Cantelli inequalities .....	78
4.4	Parametric distribution fitting.....	79
4.4.1	Kolmogorov-Smirnov goodness-of-fit test .....	80
4.4.2	Lillifors goodness-of-fit test .....	81
4.5	Construction and application of a surrogate model .....	82
4.6	Uncertainty quantifications for multiple variables.....	85
4.6.1	Simultaneous multiple tolerance limits .....	85
4.6.2	Probability of compliance of multiple limiting values.....	86
<b>5</b>	<b>Sensitivity Analysis .....</b>	<b>89</b>
5.1	Correlation based sensitivity indices .....	90
5.1.1	Pearson's correlation .....	90
5.1.2	Spearman's rank correlation .....	98
5.1.3	Blomqvist's medial correlation.....	99
5.1.4	Kendall's rank correlation.....	101
5.1.5	Partial correlation coefficient, standardized regression coefficient and coefficient of determination relating to Spearman's, Blomqvist's and Kendall's correlations.....	102
5.2	Multiple correlation coefficients .....	103
5.2.1	Pearson's multiple correlation .....	103
5.2.2	Spearman's, Blomqvist's and Kendall's multiple correlations .....	104
5.3	Correlation ratio .....	105
5.3.1	Correlation ratio on ranks.....	107
5.4	Sobol indices .....	109
5.5	Goodman/Kruskal coefficients from 2x2 contingency tables .....	112
5.6	Results from stepwise regression .....	113
