

Overview

List of Abbreviations	15
1 Introduction	17
1.1 Prepositions and conjunctions based on participles	17
1.2 The aim and structure of the present study	19
2 Theoretical framework	21
2.1 Participles, prepositions, conjunctions and adverbs as grammatical categories in the history of grammar writing and lexicography	21
2.2 Participial prepositions and conjunctions in current linguistic research	29
3 The big(ger) picture: the situation in Germanic and Romance languages	39
3.1 The situation in earlier Middle English	39
3.2 Old English antecedents	40
3.3 German	43
3.4 Dutch	45
3.5 Scandinavian languages	45
3.6 Proto-Indo-European and ancient Indo-European languages	48
3.7 Latin	50
3.8 Vulgar and Medieval Latin and Proto-Romance	53
3.9 Romance Languages	56
3.10 Old French and Anglo-Norman	58
3.11 Conclusions	60
4 Methodological considerations	63
4.1 Problems of empirical diachronic analysis based on corpora	63
4.2 Syntactical types of <i>OED</i> participial prepositions and the categorization of corpus findings	64
5 Participial prepositions and conjunctions in the history of English: General tendencies	69
5.1 Overview	69
5.2 Conclusions	94

6	Word profiles and detailed discussion of dictionary and corpus findings	97
6.1	Individual items	97
6.2	Overview and Conclusions	192
7	Recent expansion of participial prepositions and conjunctions: An on-going development	211
7.1	Individual items	211
7.2	Conclusion	220
8	General conclusion and outlook	221
	Literature	227
