

public servant and my commitments to the academia. It was in early 2018 when I finally started writing this book, after the book proposal was selected by the Amorepacific Scholarship Foundation. This book would not have existed if not for the generous supports like the Chemical Compositional Analysis of North Korean Cosmetics in laboratory and research funds from Seo Kyung-bae, President of Amorepacific. I would like to express my utmost gratitude to those at the foundation who work all day to materialize the beauty of Korea and Asia. Lastly, I would like to extend my gratitude to my editor, for publishing such a visually beautiful book.

Seoul, Korea (Republic of)
April 2020

Professor Sung-wook Nam
On behalf of the authors
