LIST OF FIGURES

Fig. 1.1	The importance of time. (Source: Authors' own creation)	16
Fig. 1.2	The level of analysis. (Source: Authors' own creation)	17
Fig. 1.3	Equilibrium or disequilibrium. (Source: Authors' own creation)	17
Fig. 1.4	Signals. (Source: Authors' own creation)	18
Fig. 1.5	Technology and entrepreneurship. (Source: Authors' own creation)	19
Fig. 1.6	Alternative visions of the future under different scenarios. (Source: Author's own creation)	30
Fig. 3.1	Characteristics of transition stages to different income levels. (Source: Authors' own creation)	83
Fig. 3.2	Stagnated idiosyncratic growth prototype. (Source: Authors' own creation)	84
Fig. 3.3	A ten-year Eurozone government debt interest rates and debt/GDP growth (quarterly data). (Source: Oxford Economics and authors' calculations)	86
Fig. 5.1	The ACF approach. (Source: Sabatier, 1988, and authors' calculations)	130
Fig. 7.1	Quality of institutions on time. (Source: Worldwide Governance Indicators-The World Bank and authors' calculations. Note: The data present an average of six variables: voice and accountability, political stability/absence of violence, government effectiveness, regulatory quality, rule of law, and control of corruption. The highest value is 100, that is, the best quality institutions)	164

Fig. 8.1	Adjustment goal, time required, speed of adjustment and social flexibility. (Source: Authors' own creation)	207
Fig. 9.1	Entrepreneurial growth process. (Source: Wright & Stigliani, 2012, and authors' creation)	220
Fig. 10.1	A macro-model of economic growth. (Source: Authors' own creation)	245
