## **CONTENTS**

| 1.        | Foreword   | 7  |
|-----------|--|--|
| II.       | Infrastructure and Building Requirements   | 9  |
|           | <ul> <li>1 Accelerator and beam transport</li> <li>2 Target</li> <li>3 Target handling</li> <li>4 Storage areas</li> <li>5 Experimental halls</li> <li>6 Server rooms, IT, software</li> <li>7 Energy consumption</li> <li>8 Realization <ul> <li>8.1 Management</li> </ul> </li> <li>9 Costing</li> </ul>   | 9<br>11<br>13<br>13<br>13<br>15<br>15<br>16<br>18                                      |
| —<br>III. | Organisation and Management  | 21   |
|           | <ul> <li>Project description</li> <li>Project construction realization</li> <li>HBS construction project: organisation and management</li> <li>3.1 Project organisation and governance</li> <li>3.1.1 Subproject management.</li> <li>3.1.2 Roles and Responsibilities</li> <li>3.2 Schedule and timeline</li> <li>3.2.1 Schedule Management Plan</li> <li>3.3 Staffing profile and HR management</li> <li>3.4 Financial management</li> <li>3.4.1 Budget allocation</li> <li>3.4.2 Monitoring and control</li> <li>3.5 Procurement</li> <li>3.6 Quality management and assurance</li> <li>3.7 Risk management</li> <li>3.8 Change management</li> </ul> | 21<br>21<br>22<br>22<br>23<br>24<br>26<br>27<br>27<br>28<br>28<br>29<br>29<br>29<br>29 |

|     | 3.9 Stakeholder and communication management               | 30  |
|-----|--|-----|
|     | 3.9.1 Stakeholder management plan                          | 31  |
|     | 3.9.2 Communication management plan                        | 32  |
|     | 3.10 Documentation   | 32  |
|     | 4 Operation  | 32  |
|     | 4.1 Diversity and inclusion                                | 34  |
|     | 4.2 Management of radioactive hazards                      | 35  |
| IV. | Sustainability and socio-economic impact                   | 37  |
|     | 1 Environmental sustainability                             | 41  |
|     | 1.1 Climate neutral facility                               | 41  |
|     | 1.2 Climate neutral buildings                              | 42  |
|     | 1.3 Renewable energy and energy procurement                | 43  |
|     | 1.4 Electricity demand of the HBS                          | 44  |
|     | 1.4.1 Electricity Procurement                              | 48  |
|     | 1.5 Climate neutral operation                              | 50  |
|     | 1.6 Safety and emissions                                   | 51  |
|     | 2 Economic sustainability                                  | 53  |
|     | 2.1 Socio-economic impact                                  | 53  |
|     | 2.2 Net economic impact.                                   | 56  |
|     | 3 Social sustainability                                    | 58  |
|     | 4 Decommissioning  | 60  |
|     | 5 Lessons learned  | 62  |
|     | 5.1 Best practice from other facilities                    | 62  |
|     | 5.2 Socio-economic impact                                  | 62  |
|     | 5.3 Environmental impact                                   | 65  |
|     | 6 A green user research facility                           | 66  |
| .,  |  |     |
| ٧.  | Author list and acknowledgements                           | 67  |
|     | 1 Volume author list                                       | 67  |
|     | 2 Acknowledgments  | 67  |
| Α.  | Appendices   | 69  |
|     | • •  |     |
|     | 1 Feasibility study to the TDR Technical Design Report HBS | 70  |
|     | 2 HBS - Guidelines on sustainability requirements          | 95  |
|     | 3 Procurement of green electricity for the HBS             | 117 |
