Foreword Edition 2	3
Authors Edition 2.....	5
Remarks for using of VGB-Standards	6
Introduction.....	17
1 Scope	22
2 Reference to Standards and Guidelines	23
3 Terms, Abbreviations, and Symbols	27
3.1 Terms	27
3.2 Abbreviations	38
3.2.1 Abbreviations general	38
3.2.2 Short Sign for Data Positions	39
3.3 Symbols	40
4 Designation System RDS-PP	41
4.1 Introduction	41
4.2 Basics and Rules	41
4.2.1 General	41
4.2.2 Object.....	41
4.2.3 Aspect	42
4.2.4 Structuring	44
4.2.5 Classification	47
4.2.6 Scope of Designation	48
4.3 Designation Process	50
4.3.1 General	50
4.3.2 Process Steps	51
4.4 Designation Structure.....	54
4.4.1 General	54
4.4.2 Prefix	56
4.4.3 Letters and Digits	57
4.5 Combination of Designation Blocks	59
4.5.1 General	59
4.5.2 Linkage.....	59
4.5.3 Allocation.....	61
4.6 Notation.....	62

5	Designations Types	63
5.1	Overview	63
5.2	Conjoint Designation “#”	64
5.3	Function	75
5.3.1	General	75
5.3.2	Breakdown Level F0	76
5.3.3	Breakdown Level F1	79
5.3.4	Breakdown Level F2	82
5.4	Product Class “-”	85
5.5	Operating Equipment “ = - ”	87
5.5.1	General	87
5.5.2	Structure and Content	88
5.5.3	Application of the Operating Equipment Designation	89
5.6	Functional Allocation “ == ”	92
5.7	Point of Installation “ + ”	92
5.7.1	General	92
5.7.2	Structure and Content of the Point of Installation Designation	94
5.7.3	Application Examples of the Point of Installation Designation	98
5.8	Site of Installation “++”	101
5.8.1	General	101
5.8.2	Structure and Content of the Site of Installation Designation	102
5.8.3	Application in Buildings	104
5.8.4	Application on Areas	107
5.8.5	Application Examples of the Site of Installation Designation	108
5.9	Signals “ ; ”	109
5.9.1	General	109
5.9.2	Structure and Content of the Signal Designation	110
5.9.3	Application of the Object Designation	110
5.9.4	Structure and Content of the Signal Name	113
5.9.5	Subclasses of the Signal Name	118
5.9.6	Application Examples of Signal Designation	121
5.10	Terminals “ : ”	125
5.11	Documents “&”	127
5.11.1	General	127
5.11.2	Structure and Content of the Document Page Designation	127
5.11.3	Application Example of the Document Page Designation	130
5.12	MV Switch Gear	131
5.12.1	General	131
5.12.2	Structure and Content of the Function and Operating Equipment Designation	131

5.12.3	Application of the Point of Installation Designation	139
5.12.4	Application of the Signal Designation.....	140
5.13	Cable.....	142
5.13.1	General	142
5.13.2	Structure and Content of the Cable Designation.....	143
5.13.3	Application Examples for Cable Designation	146
6	Systems of the Main System “Energy Conversion”	150
6.1	Overview	150
6.2	Wind Turbine System and Common Systems of the Wind Turbine	153
6.2.1	General	153
6.2.2	MDA Rotor System	157
6.2.3	MDK Drive Train System.....	167
6.2.4	MDL Yaw System.....	187
6.2.5	MDV Central Lubrication System	194
6.2.6	MDX Central Hydraulic System.....	195
6.2.7	MUG Support System	197
6.2.8	MUR Common Cooling System	198
6.3	Provision and Transmission of Electrical Energy	201
6.3.1	General	201
6.3.2	MKA Generator	205
6.3.3	MKC Generator Exciter Set.....	209
6.3.4	MSA Generator Lead	209
6.3.5	MSC Generator Circuit Breaker System	212
6.3.6	MSE Converter System.....	215
6.3.7	MSS Compensation System	220
6.3.8	MST Generator Transformer System.....	221
6.4	Medium Voltage Distribution Systems	222
6.4.1	General	222
6.4.2	Designation	224
6.4.3	Switch Gears.....	225
6.4.4	Cable Connections.....	228
6.5	Electrical Auxiliary Power Supply System	232
6.5.1	General	232
6.5.2	Designation	233
6.5.3	Application Examples.....	239
6.6	Control Systems.....	249
6.6.1	Overview	249
6.6.2	Process Automation System	249
6.6.3	Process Monitoring	263
6.7	Ancillary Systems.....	269
6.7.1	General	269

6.7.2	XA_ Ventilation and Air-conditioning Systems	271
6.7.3	XF_ Equipotential Bonding Systems.....	273
6.7.4	XG_ Fire Extinguishing Systems.....	279
6.7.5	XM_ Crane Assemblies, Stationary Hoists and Inspection Equipment.....	286
6.7.6	XN_ Elevator Systems	288
6.7.7	XSD Obstruction Warning Systems	288
6.7.8	XSE System for Safety and Rescue of People	294
6.8	Systems of Civil Engineering	295
6.8.1	General	295
6.8.2	UMD Structure for WTG System.....	297
6.8.3	UUA Structure and Area for Several Systems	317
7	Systems of the Main System “Energy Distribution”	318
7.1	Overview	318
7.2	Electrical Systems.....	321
7.2.1	General	321
7.2.2	Medium Voltage Distribution System	322
7.2.3	Compensation Systems	327
7.2.4	Transformer System.....	329
7.2.5	High Voltage Branch	330
7.2.6	Medium and High Voltage Cables.....	331
7.2.7	Power Supply System	333
7.3	Control System.....	335
7.3.1	General	335
7.3.2	Sub-station Automation.....	337
7.3.3	Building Automation and Control System (BACS)	341
7.4	Ancillary Systems.....	342
7.5	Structures and Areas for Grid Distribution	343
7.5.1	Structure for Offshore Grid Distribution.....	343
7.5.2	Structure for Onshore Grid Distribution.....	350
8	Systems of the Main System “Total Plant”	351
8.1	Overview	351
8.2	Outdoor Area.....	352
8.3	Storage of Spare-, Reserve- and Wear Parts	356
8.4	Recording Environmental Data	357
8.5	Demand-controlled Night Marking.....	358
8.5.1	General	358
8.5.2	Detection System	359
8.6	Farm Computer	361

Annex A Checklist for Starting the Designation Process	363
Annex B Application Examples	366
Annex C Essential Systems of a Wind Power Plant	372
Annex D Form for the Submission of New Designations.....	381
Annex E Additions and Changes	382
List of figures	387
List of tables	399
Bibliography.....	409
