List of Figures	ix
List of Tables	xi
List of Abbreviations	xiii
Publications and Presentations	xv
I. Synopsis of the Thesis	1
1. Synopsis	3
1.1. Introduction	3
1.1.1. Human-AI Collaboration in Healthcare	4
1.1.2. Engaged Scholarship Approach of the Thesis	6
1.2. Structure of the Thesis	8
1.3. Summary of the Essays	10
1.3.1. Essay I: Artificial Intelligence in Acute Care: A Systematic Re- view, Conceptual Synthesis, and Research Agenda	10
1.3.2. Essay II: How Individuals Seek and Take Advice from Artificial Intelligence: Mixed-Methods Evidence on Hybrid Problem-Solving	12
1.3.3. Essay III: From Concept to Application: A Blueprinting Approach for Artificial Intelligence in Hospitals	14
1.4. Overall Contributions and Implications	16
1.4.1. Contributions to Research	16
Addressing the Grand Challenges for Human-AI Collaboration via Multi-Perspective Analysis	16
Transferring Knowledge between Research and Practice	18
1.4.2. Contributions to Practice	19
Guidance for Managers	19
Opportunities for System Developers	20

1.4.3. Limitations and Future Research	20
1.5. Conclusion	22
1.6. References	23

II. Research Essays 31

2. Essay I: Artificial Intelligence in Acute Care: Systematic Review, Conceptual Synthesis, and Research Agenda	33
2.1. Introduction	33
2.2. AI in Healthcare	36
2.2.1. AI and its Potential in Healthcare	36
2.2.2. AI Applications in Acute Care	37
2.3. SDL in Healthcare	40
2.3.1. Value Co-Creation in Healthcare	41
2.3.2. Actors as a Key Component in Healthcare	43
2.3.3. Patient Journey in Healthcare	44
2.4. Methodological Approach	45
2.4.1. Two-Step Approach	45
2.4.2. Conducting the Review	45
2.4.3. An SDL Lens on AI Research	47
2.5. AI Research in Acute Care	48
2.5.1. Micro-Level Insights in Acute Care	48
2.5.2. Meso-Level Insights in Acute Care	49
2.5.3. Activity-Level Insights in Acute Care	53
2.6. Discussion	54
2.6.1. Towards a Research Agenda in Acute Care	55
2.6.2. Researching the Triadic Interaction Between Different End Users and AI Applications	57
2.6.3. Developing AI Applications for Missing Patient Journey Steps . .	57
2.6.4. Testing AI Applications in Realistic Clinical Settings	59

2.6.5. Theoretical Implications	60
2.6.6. Practical Implications	61
2.6.7. Limitations and Future Research	62
2.7. Conclusion	63
2.8. References	64

3. Essay II: How Individuals Seek and Take Advice from Artificial Intelligence: Mixed-Methods Evidence on Hybrid Problem-Solving 81

3.1. Introduction	82
3.2. Theoretical Background	85
3.2.1. Human Problem-Solving and the Role of AI	85
3.2.2. Advice Seeking and Taking in Hybrid Problem-Solving	89
3.3. Methodological Approach	91
3.4. A Field Study on AI Advice Seeking and Taking in Action	93
3.4.1. Participants and Procedure	95
3.4.2. Study Materials, Measures, and Analysis	96
3.4.3. Findings and Discussion	97
3.4.4. Within-Person Differences between AI Advice Seeking and AI Advice Taking	97
3.4.5. Between-Person Differences in AI Advice Seeking and AI Advice Taking	97
Perception of the Self	98
Perception of the Task	98
Perception of the Advisor	99
3.5. Emergent Conceptual Model and Hypotheses Development	100
3.5.1. The Role of Self-Perception	101
3.5.2. The Moderating Role of Task Perception	102
3.5.3. The Moderating Role of Advisor Perception	104
3.6. A Lab Experiment to Test the Conceptual Model	105
3.6.1. Participants and Procedures	107

3.6.2. Study Materials, Measures, and Analysis	108
AI Advice Seeking and AI Advice Taking	108
Task Self-Efficacy	108
Level of Automation	109
Task Difficulty	109
Control Variables	109
3.6.3. Findings and Discussion	110
Descriptive Results	110
Manipulation Checks	112
3.6.4. Hypotheses Testing	112
3.6.5. Further Analyses	115
3.6.6. Discussion	117
3.7. General Discussion	118
3.7.1. Theoretical Implications	119
3.7.2. Practical Implications	121
3.7.3. Limitations and Future Research	122
3.8. Conclusion	123
3.9. Appendix	124
3.10. References	127

4. Essay III: From Concept to Application: A Blueprinting Approach for Artificial Intelligence in Hospitals	139
4.1. Introduction	140
4.2. Theoretical Background	143
4.2.1. AI Applications in Hospitals	143
4.2.2. Service Blueprinting in Hospitals	144
4.3. Methodological Approach	149
4.4. Problem Identification and Derivation of Solution Objectives	151
4.5. Development of an AI Blueprinting Approach	155
4.6. Demonstration of Framework Applicability	158

4.7. Testing and Evaluating the AI Blueprinting Approach	162
4.7.1. Workshop Design	162
4.7.2. Workshop Findings	163
4.8. Discussion	166
4.8.1. Theoretical Implications	168
4.8.2. Practical Implications	169
4.8.3. Limitations and Future Research	171
4.9. Conclusion	171
4.10. Appendix	173
4.11. References	175
