

Table of Contents

List of abbreviations	1
Abstract.....	3
Zusammenfassung	4
1. Introduction	5
1.1 Clinical picture of Alzheimer's disease.....	5
1.1.1 Progression and stages of Alzheimer's disease	5
1.1.2 Pathology of Alzheimer's disease.....	6
1.1.2.1 Pathogenesis	7
1.1.2.2 Atrophy	7
1.1.3 Diagnostics of Alzheimer's disease.....	8
1.1.4 Therapy of Alzheimer's disease.....	10
1.2 Hemispheric asymmetry	10
1.2.1 Definition of hemispheric asymmetry in general and in healthy aging	10
1.2.2 Hemispheric asymmetry in other neurodegenerative diseases.....	12
1.2.3 Hemispheric asymmetry in Alzheimer's disease and background	13
1.2.4 Role of hemispheric asymmetry in potential clinical use.....	13
1.3 Hypothesis	14
1.3 Goal	15
2. Methods.....	16
2.1 Voxel-based morphometry analysis.....	16
2.1.1 Data/Sample selection	16
2.1.2 Preprocessing	17
2.1.3 Statistical Analysis.....	20
2.2 Random Forest & Boruta	21
2.2.1 Preprocessing	21
2.2.2 Classification	23

2.2.3 Feature Selection	25
2.2.4 Visualization.....	25
2.3 Diagnosis classification.....	25
2.3.1 Classification with the whole brain and Boruta regions.....	26
2.3.2 Control regions	27
2.3.3 Classification parameters	29
3. Results.....	31
3.1 Voxel-based morphometry analysis.....	31
3.2 Random Forest & Boruta	33
3.3 Diagnosis classification.....	36
4. Discussion	39
4.1 Voxel-based morphometry analysis.....	39
4.2 Random Forest & Boruta	41
4.3 Diagnosis Classification	44
4.4 Strengths and limitations	47
4.5 Outlook.....	48
6. Conclusion.....	49
7. Literature.....	51
8. Appendix	55
8.1 Voxel-based morphometry analysis.....	55
Acknowledgement	58
Danksagung.....	58
Declaration of Data Storage.....	59

Erklärung zur Datenaufbewahrung.....	59
Eidesstattliche Erklärung	60
