

Table of Contents

List of abbreviations

1. Introduction	1
1.1 Hypertrophy	1
1.2 Relationship between CVDs and LVH	4
1.3 Serum Or Plasma?	7
1.4 HPLC and Mass Spectrometry	8
1.5 Peptidomics	9
1.6 LASSO Selection and Cross-Validation	11
1.7 Bioinformatic Analysis	13
2. Research Objective	15
3. Material and methods	16
3.2 Methods	17
4. Results	25
4.1 Participants and MS Data Preparation	25
4.2 Parameters selection	28
4.3 Detailed information of identified molecules from MS2	37
4.4 GO annotation and KEGG enrichment	41
5. Discussion	43
6. Summary	48
7. Reference	48
8. Acknowledgment	64
9. Affidavit regarding data retention	65
10. Affidavit according to § 5 (1) § 11 (3) 12 of the doctoral studies regulations	66
11. Curriculum vitae	67
