LIST OF TABLES, FIGURES, AND MAPS	viii
INTRODUCTION	3
Chapter	
1 THE SOVIET ENERGY BALANCE	6
Notes	12
2 NATURAL GAS	13
Historical Background	14
Present and Future Development	18
Exploration and Location of Reserves	18
Production	36
Transportation and Storage	51
Notes	64
3 OIL	69
Historical Background	69
Present and Future Development	75
Exploration and Location of Reserves	75
Production Statistics	82
Technological Progress	106
Transportation	109
Notes	117
4 COAL	122
Historical Background	122
Present and Future Development	132
Exploration and Location of Reserves	132
Major Basins and Fields	136
Production Statistics	157
Methods of Production	159

Chapter	Page
Coal Preparation	169
Transportation	170
Notes	176
5 PEAT	179
Historical Background	179
Present and Future Development	183
Location of Reserves	183
Production	190
Utilization	193
Notes	194
6 OIL SHALE	196
Historical Background	196
Present and Future Development	198
Location of Reserves	198
Production	203
Utilization	207
Future Production	208
Notes	209
7 ALTERNATIVE POWER SOURCES AND ELECTRICITY PRODUCTION	211
Historical Background	211
Present and Future Development	217
Notes	229
8 UTILIZATION OF FUEL	232
Comparative Costs	233
Role of Natural Gas in the Economy	236
Conservation of Energy	243
Regional Needs	246
Importance in Trade	252
Notes	259
SUMMARY AND CONCLUSIONS	261

Appendix	Page
A Definitions	264
B Comparative Costs of Extracting Fuels, by Area	269
C Comparative Costs of Transporting Energy, by Distance and Form of Transport	271
D Comparative Energy Costs in Area of Consumption	272
E A Note on Wood as Fuel	273
BIBLIOGRAPHY	274
ABOUT THE AUTHOR	279
