

## Contents

Chapter 1: General Introduction.....	2
Chapter 2: PCSK9: A Multi-Faceted Protein That Is Involved in Cardiovascular Biology.....	33
Chapter 3: PCSK9 Imperceptibly Affects Chemokine Receptor Expression In Vitro and In Vivo.....	56
Chapter 4: Calcium-Sensing Receptor (CaSR), Its Impact on Inflammation and the Consequences on Cardiovascular Health.....	74
Chapter 5: Adipocyte calcium sensing receptor is not involved in visceral adipose tissue inflammation or atherosclerosis development in hyperlipidemic Apoe <sup>-/-</sup> mice.....	91
Chapter 6: General Discussion.....	103
Summary.....	118
Valorisation.....	122
Addendum: Monocyte calcium-sensing receptor is a key regulator of atherosclerotic plaque stability.....	132
